Art Unit: 2872

### **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 37, 39, 42, 49, 50, 61 are rejected under 35 U.S.C. 102(b) as being anticipated by Murakami et al. (6,522,716).

Murakami et al. (6,522,716). Shows (see fig. 1)

a) at least six mirrors, each mirror having a physical mirror surface and a vertex at the physical mirror surface, wherein the physical distance between the vertexes of the

physical minor surfaces of adjacent mirrors is chosen such that the at least six mirrors each have sufficient mirror thickness and stability to prevent surface deformations due to high layer tensions, see col. 10, lines 30-40, and col. 13, lines 15-20,

b) aspherical surfaces, see col. 10, line 34-39.

# Allowable Subject Matter

Claims 38, 41, 43-48, 51, 62-70 (71-72) are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Application/Control Number: 10/603,368

Art Unit: 2872

Claims 52-60 (71-72) are allowed.

### REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest he mirror thickness of the at least six mirrors are sufficient to prevent surface deformations when the layer tensions on the at least six minors are lower than 350 Mpa or other conditions as set forth in the claimed combination.

### CONTACT INFORMATION

Papers related to this application may be submitted to Group 2870 by facsimile transmission. Papers should be faxed to Group 2800 via the PTO Fax center located in the Crystal Plaza 4. Faxing of such papers must conform with the notice published in the official Gazette, 1096 OG 30 (November 15, 1989). The CP-4 Fax Center number is (703) 308-7722.

Any inquiry of a general nature or relating to the status of this application should be directed to M. Sikder whose telephone number is (571) 272-2321.
